WEDNESDAY, June 6-P. M. The Stock market opened this morning with a cheer-

ful feeling, and continued strong during the day, proving the truthfulness of our remark, that the decline of vesterday was one of those inexplicable spasms which are not infrequent in the speculative Stock market. The improved feeling to-day was partly the result of the prompt denial of the truth of yesterday's rumors, that the harmony at present existing between the trank lines was about to be broken up. A dispatch from Mr. Corning to a prominent house in the street states that the four lines were never on better terms with each other. A portion of the improvement in the narket was due to the increased orders from outside speculators, brought in by the lower prices of vesterday. Between the Boards the market was strong. At the second session, with a very moderate business, the quotations improved [w1] P cent. The smallness of the transactions was due, however, more to the lack of stock offering than to the indifference of buyers. Central was firm during the day, the increase in the May traffle made public this morning being very satisfactory. It opened at 82½ and closed at 82½ bid. Pacific Mail continues to advance, and sold as high as 94 on boyers' option. The over-issue now stands at about 800 shares, but there is yet considerable stock standing on the ledger, the dividends upon which have not yet been called for. The Company are very desirous that all holders of certificates should present them at once for registry and dividend. Panama was in fair demand, and advanced to 135 on short buyers' option. Hudson River was quiet, but very strong, and closed with none offered below 49. In Eric there was an unusally large tusiness, and this stock was an exception to the upward tendency of the market. It fell off from the opening | P cent, but afterward recovered | P cent. A considerable line of shorts has been put out within a day or two in this stock, which would indicate that the reorganization scheme is not progressing satisfactorily. In the Western shares, the market, without special activity, was buoyant at the Second Board. There are no registered transactions in the Michigan Southern issues, but the bidding showed an improvement of } ? cent. Michigan Central closed at 53 bid, against 521

was made at 1044, and some private sales afterward at the same rate. The registered are held at 1021, ex interest. State Stocks are firm and in fair demand. A small lot of Missouri 6s sold at 841. The business in Railroad Bonds was not large, but prices were steady. Michigan Southern Second Mortgages improved These Bonds have been improving recently, upon the confidence felt that the road will earn, during the present year, considerably more than enough to pay the interest on the entire debt and the Sinking Funds, and that under the present able and economical management, the floating debt will be arranged, the Company freed from its embarrassment, and the regular payment of micrest on its debt resumed, with a surplus applicable to the dividend upon the Preferred Stock. The estimated earnings of the year are \$2,225,000, which will le sufficient for the above result. At the close, the market was very strong at the following quotations: Virginia 6e, 932 2933; Missouri 6e, 842 2841; Cauton Company, 204 @21; Cumberland Coal, 134 @14; Pacific Mail, 931 @94; New-York Central Railroad, 821 @822; Erie Railroad, 197 & 195; Hudson River Railroad, 484 #49; Harlem Railroad, 121 #13; Harlem Preferred, 39] #40; Reading Railroad, 41 # #41]; Michigan Central Railroad, 53 2 531; Michigan Southern and Northem Indiana Railroad, 12; #124; do. Guaranteed, 24; #242; Panama Railroad, 1342 #135; Illinois Central Railroad, 63†w64; Galena and Chicago Railroad, 64 w64; Cleveland and Toledo Railroad, 29†w29; Chiesgo and Rock Island Railroad, 691 2691; Chicago, Burlington and Quincy Railroad, 751 @751; Illinois Central 7s. 901 @ 901.

yesterday. Galena sold at 64, and Rock Island at 79‡. Toledo was steady at 29‡. In the Bond market prices,

with the exception, perhaps, of the Erie issues, are frm. A sale of \$25,000 Government 5s, 1874, coupons,

The steamer being gone, there is nothing doing in the foreign bill market, and rates closed with a down-

ward tendency.
Freights-To Liverpool, 500 bbls. Rosin, at 1s. 9d. 100 bales Cotton, at [d.; 1,000 boxes Cheese, P seamer, at 50s.; 10 tuns Oil, at 24s.; 100 boxes of Bacon, at 22s. 6d.; 5,000 bbls. In regard to the Silver Hill Mine, Mr. Petherick writes from Lexington, N. C., dated June 3, 1860, as

follows: " I got Mr. Pascoe (Mining Superintendent) over "I got Mr. Pascoe (Mining Superintendent) over here to-day to learn how things are progressing at this critical period. We have had a long discussion on the preminent points of the undertaking, his statement and opinion in regard to which are very satisfactory indeed. I learn from him that in the shaft in the east vein, about 35 feet below the 380-feet level, there is a very important improvement. You will be pleased at the interest he takes, and his impression in the Zinc Bleade part of the business." part of the business.'

Railroad Company, its financial exhibit will show a reduction of floating debt of \$100,000, leaving \$250,-000 to be paid. Some plan to fund this sum is in coutemplation, which will enable the Company to resume dividends. The transfer books of the Galena and Chicago Company reopen to-morrow. Transferring on that day will, it is us derstood, be done in the manner hitherto adopted by the agency, but on and after the 8th instant the method in use by the New-York Central agency will be applied to the transfers of the Galena Company's stock, or, in other words, only one transfer will be allowed on any single certificate in the same day. The Board of Brokers' will, we understand, adopt the plan of delivery by power and certificate. The Mining Board was organized to-day by the election of Mr. O. D. Ashley as President, Mr. Howard Wainwright as Vice-President, and Mr. White, of Worth & White, as Secretary. About 20 members were present, and the membership is for the present confined to the members of the Stock Exchange. Mr. Ashley declined to serve as President. The steamer to-day took \$1,031,676 in specie, of which about \$200,-000 was in silver. It is very doubtful if the recent shipments of specie pay any profit to the shippers.

April. 11,169,025 22,425,619 16,971,358 PHILADELPHIA vs. ST. GEORGE OF NEW-YORK.

The contest between these Clubs, which was commenced on Tuesday morning, was brought to a close yesterday afternoon, the result being in favor of the St. George Club, their score at the close of the second innings exceeding that of their opponents, with six wickets to fall. The attendance of spectators was much less than we expected to see on such a fine day; but, nevertheless, there were treble the number on the ground yesterday to what there were the day previous. This match was an exceedingly well-played one throughout on both sides, and one very creditable to the Philadelphians, who fielded finely on both days, and in some instances batted splendidly. Of the individual play of the match worthy of special notice, we would mention the very fine total score of 59 made by Walter Newhall. As a display of batting, it was in every respect a masterly piece of cricketing. Barclay, too, added a total of 33 to the score, carrying his bat out in the second innings against the utmost Gibbes, Sadler, and Brett apparently could do to take him; the two former, too, bowled finely in the second innings. Barclay's wicket-keeping was admirable; he caught Sudler out at the wicket in A. E. E. style. He is a fine cricketer, and a credit to the American portion of the lovers of the noble game. Vernon bowled exing, and so did Se emely well in the second The latter was very unfortunate at the bat, although he made a good score in the first innings. The fielding of all was fine, especially that of Howe at "bye" and Newhall at "long-stop." Newhall caught three out in style, and Johnson made a fine catch.

Of the play of the St. George Eleven we would especially mention the excellent fielding of B. Robinson, Bage, and Walker, and H. Wright's long-stopping. Sadler's score of 53 was a feature of the match, it was so finely obtained. H. Wright and Gibbes, too, batted well on the second innings. Robinson's fine score of 28 in the first innings was also a very creditable display of batting. He was the only American player in the Eleven, and was frequently applauded by his opponents for his fine fielding. Altogether, the match was a very fine one, and was enjoyed by all parties. To-day the Philadelphians commence their match with the New-York Club, on the latter's grounds at Hoboken, which are free of access to all comers, and finely located for spectators, as all can view the game from the boundary of the field. Seats and tents have been prepared for the ladies, and they will have ample accommodation. We understand that the New-Yorkers have a fine team on band wherewith to encounter their able opponents, and we may therefore fully anticipate another fine display of batting. The New-York Club, too, are very strong in bowling, and therefore the Philadelphians will have to strive hard for victory. Among the Eleven of New-York are the names of Higham, Sharp, Wilby, Marsh, Cuyp, Sams, Crossley, Bray, Burch, &c., all fine cricketers. The following is the score of the match played yesterday: 1st Innings. PHILADELPHIA. 2d Innings.

PUBLIC MEETINGS:

BOARD OF EDUCATION.

The Board of Education met yesterday. President
CURTIS in the chair.

Several communications from Local Boards asking.

for repairs were referred.

The Twelfth Ward asked for an appropriation of \$4,800 for 6 lots on 99th and 98th street for a school-house. Referred to Committee on Sites and School-

houses. Referred to Committee on Sica a chandelier in the Trustee's room of the Fourteenth Ward was referred to the Committee on Finance. The Local Beardsays that it has six branches or burners, and one with less proportions would not furnish sufficient light for a full Board.

The City Superintendent reported the consistion of

The City Superintendent reported the completion of The City Superintendent reported the completion of the examination of the schools commenced in October. He says that the grade of scholarship and advancement is considerably higher than ever before. He thinks the number of studies too great, and that fewer lessons should be prepared out of school by grammar school scholars, and none by primary scholars, one or two of the school-hours at least should be given to study. He recommends the entire prohibition of lessons to be prepared out of school in the Primary Departments, the setting apart of at least two hours of each school-day in the Grammar Departments respectively for study, under the direction of the teachers of the several classes, and the prohibition in these Departments of any lessons out of school hours requiring for their complete mastery more than one hour.

ing for their complete mastery more than cue hour.

The question then came up on the unfinished business of the last meeting—the resolution offered by Mr.

Farr:
Resolved, That the Board of Education disapproves of the
course of the Board of Trustees of the Fourth, Ward, in their
recent summary dismissal of teachers without any assigned After a lengthy debate, the consideration of the busi-

After a lengthy debate, the consideration of the business was postponed for one hour.

The Committee on Supplies, having been ordered to readvertie for proposals for wood, made a lengthy report in favor of confirming their previous award to J. F. Barnard, No. 224 Front street. They showed that he was the lowest bidder and that there was no informality about his bid.

Mr. Gildersleeve, of the Ninth, moved that the report be referred back to the Committee, to obey the commands of the Board.

Mr. Davesport, in replying, accused the officers of the Nicth Ward of factiousness.

Mr. Farr requested the President to call on Mr. Davenport to retract what he had said; it was a personality which the Board should not tolerate.

The Presider declined.

Mr. Farr would then state that Messrs. Conover & Co. were the only legal bidders before the Committee, and that the Committee allowed Mr. Barnard to alter his bid.

Mr. DAVENPORT, the Chairman of the Committee

Mr. DAVESPORT, the Chairman of the Committee stated that that was not true.

Mr. GLOVER, a member of the Committee, said that either Mr. Farr was saying what he knew was not true, or that he didn't know anything about the matter.

After some further discussion, the action of the Committee was approved, and the contract with J. T. Barnard confirmed.

The hour for the consideration of Mr. Farr's resolu-Mr. WATERBURY moved, as a substitute, a resolu-tion declaring the removal of a competent school teacher, without sufficient cause, an act of injustice, calculated to impair the public confidence in the man-

Mr. TUCKER did not think this was enough. He moved a Committee of Investigation, with reference to legislative action, which should prevent improper re-

moval of teachers.

Mr. Benedict said that if, as had been asserted by one of the school officers of the Fourth Ward in a public journal, these removals had been made by reason of the religious faith of the teachers, this Board should express its opinion, even if it had no power in the premises.

premises.

Mr. Gregory thought it high time that this Board took some action in this matter. There should be an investigation; it would at least form a basis on which something could be grounded which might assure the rights of teachers.

After considerable discussion as to extending the time

At 8 p. m. the President declared the Board ad-Mr. GLOVER gained the floor at 7:56 p. m.

COMMISSIONERS OF EMIGRATION.

COMMISSIONERS OF EMIGRATION.

This Board met at Castle Garden yesterday afternoon, when it appeared from the weekly statement that the number of emigrants arrived to the 6th inst. was 38,817. To same date hast year, 28,905. Aggregate receipts, \$125,416 16. Disbursements, \$96,233 36. Balance, \$29,162 80.

A communication was received from the Quarantine Commissioners, asking for a loan of \$5,000 to defray the first expenses for the reception of yellow fever patients. It also contained a statement that two patients had lately arrived in a vessel from Rio Janeiro, on board of which two other cases occurred, one of which proved fatal. The patients had been conveyed to the Sailors' Retreat, for want of other accommodation.

tion.

On motion of Mr. Low, the loan was granted, under condition that the same should be retained out of the projected loan on the Seguine's Point property. Messrs. Verplanck, Carrigan, and Cammings were appointed a Committee to settle the claims pending between the Commissioners of Emigration and the Commissioners of the Department of Public Charities and Coorrections.

The following table shows the arrivals for the past

THE TONG ILING	#17 10 10 10 17 17 17 17 17 17 17 17 17 17 17 17 17

On 63 sail vessels there arrived 17,700, and the bal ance, 5,998, on steamers.

The Board then adjourned.

THE QUARANTINE DAMAGES. THE QUARANTINE DAMAGES.

At noon yesterday the Commissioners appointed to investigate the extent of the damages at Quarantine met at the office of Mr. Peter B. Sweeney, No. 47 Wall street, Mr. E. W. Leavenworth presiding. Mr. A. C. Bradley, in behalf of the Richmond County Supervisors, protested against the further progress of the investigation by the Committee on the ground of its being at variance with the statute. After some discussions at the reviews of the Commission in the case. being at variance with the statute. After some discussion as to the powers of the Commission in the summoning of witnesses, Mr. Johnson, counsel for some 15 claimants, presented the claims, in writing, of Louis Hanson, \$126; John Waters, \$162; Capt. Joseph Nelson, \$220, and anticipated profits; Joseph Journay, \$244 50; George W. F. Randelph, \$105; Jas. Doyle, \$66 50; Edward Cunningham, \$169 20, and anticipated rent; David McLymon, \$75.

Ma. John E. Devellin, on behalf of the Commissioners of Emigration, for property held by them in

sioners of Emigration, for property held by them in trust, presented a claim amounting to \$259,700—one from the Commissioners of Emigration for property owned by them, \$23,442.75; one from D. H. Blasell, mounting to \$6,565.55; one from Dr. Watser, Assist-nt Physician, \$6,225. The cases of the Commissioners of Emigration were

The cases of the Commissioners of Emigration were set down for Wednesday next, at 12 o clock.

Mr. Johnson then proceeded to introduce proof in support of the claim of David McLymon. He said that Mr. McLymon, in common with five other boatmen, were provided with houses inside the inclosure at the Marine Hospital on Staten Island; and that owing to the burning, he had been compelled to hire a house outside the walls till the expiration of his term of service pudge Dr. Thomsey. ce under Dr. Thompson. Edward Cunningham, being sworn, testified as fol-

EDWARD CUNSINGHAM, being sworn, testified as follows;

I reside at Castleton; I am a boatman at Quarantine; I have been boatman for Il years; there were six boatman belonging to the health efficers at the time of the fire; there were six houses boilt for the boatman; I occupied one of them by permission of one of the Cemmissioners of Emigration; I know David McLymon; he locupied one of the six houses; he was one of the Davmen; he had been boatman for about seven years, up to 19th April, 1889; his house was burned on the 2d of September, 1881; all the six houses were burned at the same time.

Mr. BRADLEY said he must object to the examination, because a person living rent free in the house of his employer, or in a house provided by his employer, could not be a tenant according to the law, and had no claim beyond that of a tenant at will, and therefore none for an expense which he could not control.

Mr. JOHNSON maintained the right of the claim, and

none for an expense which he could not control.

Mr. Johnson maintained the right of the claim, and quoted from the act of ISS5 in reference to the recovery of damages for property destroyed by fire or riot. The Court had already decided in Dr. Thompson's case that such a claim for damages was valid, as he had a right to occupy his house till the end of his term. The act in relation to Quarantine had been careful to guard these rights. It had made it necessary that the employees of the Hospital at Quarantine should reside within its walls, and required that the Commissioners should provide residences for them.

Dr. Richard H. Thoorson being sworn, testified as follows: I was Health Office in 1858; Mr. McLymon was a boatman under ne it was understood that his appointment was formy term, and that he was to have a house to live in which the enclosure; I paid the boatmen out of my own salary; I could discharge them when I pleased and they could leave when they liked; the madeistanding as to the extent of he appointment of these boatmen was of a moral character, and not a legal one.

John Waynes was called upon, stall made a sworn statement

as to the size of the houses. They were 24 feet front by 23 feet deep, two stories high, and worth at least \$150 a year. He had lost furniture, clothing, and vicknals. The boatmen combined had lost a quantity of line and victois which they had atored in the Boat-house for the purpose of whitewashing the holds of injected years.

ected vessels.

EDWARD CUNNINGHAM substantiated the statement of Mr.

Waters.

Mr. Cunningham was called to make a statement of his own loss. The question as to whether the death of his wife (who died of consumption) was accelerated by the exposure of removing, owing te the firing of the premises, was met by an objection from Mr. Brancay. This point was under discussion when the Commission resolved to adjourn till this morning at 10 o'closk.

CITY ITEMS.

Bunn's HEAD.—The report of the cattle market this veek shows a decline in the price of all kinds of stock, particularly beef cattle, worthy of the attention of all nterested parties; and nearly all mankind, as producers or consumers, are interested. It is the opinion of some well-informed persons that one of the causes of the decline of beef cattle this week is the alarm pervading the community about the cattle pest. This alarm, so far as eating the beef of bullocks sold here is concerned, is entirely unnecessary. There never was a time when the beef cattle were more healthy, nor the beef of better quality. There is but one exception, and that is of cattle fed upon distillery slops in and about this city. There were some hundreds of this class sold in the Forty-fourth-street yards some weeks ago, that were not fit for the degs, and the sale of all such in fature, or the beef of such as we know are fatted, killed, and the meat sold in this city and Brooklyn,

should be rigidly prevented.

It is dangerous to the whole country to have these diseased cattle brought in contact with other cattle in the market places, because some healthy ones are taken out almost every week by farmers, and may carry the disease into the country, just as it undoubt-edly was carried into New-Jersey. The disease there is not the same as that in Massachusetts—it is the disease of the Brooklyn distilleries. We hear to day of another case where it was carried into the country a year ago or more, and spread all through one neighborhood, and finally wore out. It should not be allowed to spread again.

We assure all readers of THE TRIBUSE that they shall be warned in time, whenever there is any danger of getting diseased beef from our great cattle market. There is none at present, beyond what may attach to distillery-fed bullocks. There is, however, a full supply of good, healthy Western corn-fed cattle sold every week, and this week they have sold very low. The very tip top at only 9 29; cents net a pound.

THE CHAMBERLAINCY .- Wm. M. Evarts, esq. Counsel to the Controller in the matter of the Champerlaincy, yesterday announced to Mr. Haws that he bad concluded his labors in making up a case for the Supreme Court, and that all would be ready to proceed with the trial to-morrow.

THE JAPANESE COMMITTEE. - This Committee have lecided not to publish the programme before next week, but we are informed that they will proceed to Perth Amboy, and meet the Japanese Embassadors at that point on their way to this city. The Eighth Regiment will meet and escort the Japanese from the landing to their quarters at the Metropolitan. On the same day the whole of the First Division N. Y. S. M. will parade, and the Fire Department would have had a orchlight parade, but the Common Council refused to appropriate the amount necessary out of the \$30,000

THE TAX-ARREARS SALE.—The tax-arrears sale was continued yesterday, by the auctioneer employed by the Chief of the Bureau of Arrears, and the bidding was quite spirited, there being plenty of those at hand who were ready to invest in the real estate of the unfortunate. In the evening the auctioneer had reached the Fifteenth Ward, having skipped the Twelfth. The sale continues to-day at 12 o'clock.

THE OYSTER SLOOP TRAGEDY-A NEW POINT FOR HICKS,-The counsel for Albert W. Hicks have discovered that the whole proceedings and trial were invalid, inasmuch as Judge Smalley, District Judge of Vermont, (who tried the prisoner), was assigned to sit in this district by Judge Nelson, of the U. S. Supreme Court and Judge of this Circuit. The counsel claim that Judge Nelson had no authority to thus assign a Judge from another district. It is an unsettled question, however, where the counsel will apply for relief.

STRAWBERRIES.-Yesterday the peddlers hawked this delicious fruit, fresh from New-Jersey, about the streets, at three cents a basket. Of course the choicest kinds sell higher; but there is a flavor about these small, field berries, that the more cultivated sorts do not surpass, and then they are so cheap and plentiful that even the poorest may feast upon them. Monmouth and Burlington Counties are now sending in liberal supplies of fruit, and Hackensack has just begun to do the same. The liberal rains, alternating with fine sunny weather, have hurried along the strawberry crop, and by next Tuesday it is expected that the lowest price will be reached. Housekeepers will prepare accordingly.

CENTRAL PARK SWANS,-Seven out of the twelve beautiful swans recently received from Hamburg, and placed in the pond at the Central Park, died on Toesday afternoon and evening. It was at first thought that they had been poisoned, but the officers of the Park subsequently came to the conclusion that they had partaken of improper food. Visitors have been allowed to feed them with whatever they chose, and a quantity of refuse food had accumulated around the dges of the Pond, where the action of the sun and sir had sored and spoiled it. It is probable that the dead swans had eaten of this and died from the effects. The stomach of one of them will be examined by Dr. Doremus to ascertain if they were poisoned or not. Hereafter visitors will not be allowed to feed them

NUISANCES AND THEIR REMOVAL .- The Summer has set in, and people appreciate more keenly every day the unpleasant presence of nuisances. At the City Inspector's office there is a daily influx of from fifty to a hundred complaints against insufferable smells from dirty alleyways, courts, yards, gutters, privies, tenement houses, stables, dung piles, butcher shops, fat boiling establishments, and mud holes. Where it is thought necessary, special visits are made by officials of the Department to the places complained of. Among the complaints not receiving any attention at the present time, are those against fat-boiling establishments. but the City Inspector proposes that something shall be done in reference to their abolition. This Summer, pursuant to the directions of the Board of Health, Mr. Delavan has given notice to the proprietors of the immense dung heap at the foot of Thirty-eighth street, East River, where 20,000 loads of manure are at times piled up at the foot of the rocks, and shoveled about to the intense discomfort of the residents of half a mile of the city roundabout, that the nuisance must be removed forthwith. In Broadway, much complaint is made against the

wholesale scattering of dust and dirt into the eyes and nostrils of people from the old builtings which are there in process of demolition. There are many buildings now coming down, on both sides of the streat, but nothing will be done, we fear, to alleviate the discomforts of the promenaders. The sweeping machines on duty at night, under the City Inspector, upon Broadway, are very unpleasant to those passing them by, in consequence of the dust they raise. A new machine has been invented, by which no dust is created, it being instantly swept into a reservoir, from which it cannot escape. It was put on and tried for the first time, on Tuesday night, and found to work very satisfactorily. In time the present machines will all be replaced by the new invention

THE NEW STEAMBOAT DANIEL DREW,-This new passenger bent, now conceded to be the fastest one on the North River, made her first regular trip on Tuesday, leaving the Juy-street dock at 7 s. m., and arriv-

ng at 31 p. m., making eleven landings. The first 45 miles was run against a strong head tide, in 2 house and 4 minutes, making three landings. Leaving Albany at 7 a m. yesterday morning, she run to Newburgh in 4 hours and 40 minutes, including stops, arriving in New-York at 3 p. m.

NEW-YORK STATE AMERICAN COMMITTEE. - A meeting of the State Committee of the "National Union Party" was held at 1 p. m., yesterday, in the office of Ex-Recorder F. A. Tallmadge. The following gentlemen were present: Messra. F. A. Tallmadge, Lorenzo Burroughs, and E. J. Brown of New-York; Roswell Graves and James L. Smith of Kings Cousty; Gen. A. H. Prescott of Herkimer County; Jones C. Hart, esq., of Troy; James Kidd, esq., of Albany; Jehiel Read, esq., of Herkimer County, and C. B. Freeman, esq., of Fultonsville.

The occasion was chiefly occupied in discussion as to the propriety and mode of calling a State Convention, to take action relative to the endorsement of the Bell and Everett ticket, and to transact the general business of the party in New-York. The following

resolution was finally adopted:

Resolved, That the friends of the National Union movement of the State of New-York be requested to selected legates, one from each Assembly District to assemble in Convention at Utica on the 12th day of July, 1890, in accordance with the resolution passed at Troy, April 18, 1860, and to transact such other business as the furtherance of the objects of the Union organization may require.

PERSONATING AN ACTRESS.-A young and rather pretty woman, named Anna Keese, has lately been doing a confidence business by representing herself as Miss Mestayer, the popular actrees at Barnum's Mu-seum. On Monday last, Anna called at the millinery establishment of Mrs. Traitel, No. 9 Division street, and desired to look at some bonnets. While examining the stock, she introduced herself to Mrs. Traitel as Miss Mestayer, and, in order to win the good will of that lady, presented her with passes to the Museum for herself and children. Anna finally suited herself with a bonnet, the price of which was \$6, and for which she gave a worthless \$5 bill of the Central Bank of New-York, and a worthless \$1 note of the Central Bank of Tennessee. Not till after her departure with the bonnet was the true character of the bills discovered. The passes to the Museum were presented at the door of that place of amusement, but admission was refused to the holders of them. Anna subsequently offered worthless bills of the same description at other places, but was finally suspected and her movements watched. Detective Roach traced her to a house at the corner of Second avenue and Fortieth street, where he found the bonnet obtrained from Mrs. Traitel, and some other goods. She was arrested and conveyed to Headquarters, where she was detained for examination. She says that a Southern gentleman named Burroughs, stopping at the St. Nicholas Hotel, paid her the money.

OBSTRUCTIONS IN THE HARBOR,-The attention of the Harbor Commissioners is directed to the dangerous position of a sunken schooner in the North River, rear Governor's Island, the top of her masts being in sight at low water. She will probably be the cause of damage to some of the many vessels daily passing. This schooner was sunk during the past Winter, and has since been drifting about the harbor.

The obstructions and dangers to the navigation of our rivers and upper bay are of a more serious character than ever before. In drawing the shad-poles the past Spring the Harbor Police did their work in a very imperfect manner; in a large majority of cases they parted the splicings of the poles, thus leaving their butts in the bottom and their tops near enough to the surface of the water to do damage to any vessel coming in contact with them. It is hoped that the Commissioners will give their attention to this evil.

Excise Commissioners,-Messrs. Haskett and Holmes met at noon on Wednesday, and granted nine licences at \$30 each.

TICKET SWINDLERS .- A few weeks since four men named John Enright, Patrick Duffy, Charles Gilmour, and Isaiah Selover, were arrested for ticket swindling. Justice Osborn held them to bail to appear for an examination which was to be had at the Tombs on Wednesday morning. For some unexplained reason, Justice Os-born failed to attend, and Justice Kelly assumed the resposibility of adjourning the case until Monday mornng next, at 10 o'clock.

BIDS AT THE CROTON DEPARTMENT .- A number of heavy contracts were awarded yesterday at the office of the Water Commissioners, as follows:

Regulating and paving with trap-block pavement Greenwich street, from the Battery to Gamevoort street; awarded to John Pettigrew at \$73,832; time, 100 days; sureties, Jacob Sharp and John Pettigrew in the sum of \$15,600 each.

The same on Tenth street, from Fourth avenue to the East River; awarded to Christopher Keyes at \$33,807 10; time, 30 days; sureties, Owen McGovern and John Foster in the sum of \$ 10.000 each.
The same on Thirty-fourth street, from Third to Lexington avenue; awarded to Alexander B. Alder at \$3,879 10; time, one month; sureties, Charles Guidet and John L. Brown.
The same on Twenty-cighth street, from Eighth avenue to Ninth avenue; awarded to James A. Duon, at \$4,769 40; time 40 days; sureties, George P. Bickford and Isaac B. Hamilin, in the sum of \$2,000 each.

sum of \$2,000 each.

Sewer in Eighth sychhe, from Eighteenth to Twenty-first sereet; awarded to James Cunningham, Jr., at \$1,395; time, 13 days; surettes, James Cunningham and John Mowbray, in the sum of \$1,000 each.

Sewer in Reade street, west of Greenwich to Washington street, and thence to sewer in Chambers street; awarded to James Cunningham, Jr., at \$1,335; time, 9 days; sureties, James Cunningham and John Mowbray, in the sum of \$1,000 each,

MINOR POLICE ITEMS.—Detectives McDougal and Bennett vesterday arrested Charles Mitchell, who was rushing through Nassan street with a chest of tea on his shoulder. His hovements being suspicious, he was conveyed to Police Head-quarters and detained for examination... David J. Nevins, a coal cealer, living at No. 609 Greenwich street, was arrested yesterias, by means of laber representations, induced him to purchase a note for \$472.76. The note was signed by J. V. W. Buckhout, but was not paid at maturity. McKinley now alleges that the note was simply given for accommodation, and not for value received, as represented by Nevins. Justice Kolly required the prisoner to find bail to answer in the sum of \$500.

A STRANGER TAKEN IN.—Eliza and John Ridgway were arrested on Theoday night, charged with having robbed a countryman, whose fictitious name is Frank Sawyer, of \$124, in a house where Frank should not have been. After having made a complaint the complainant refused to prosecute, and the prisoners were discharged.

FOUND DROWNED.—The body of an unknown man, apparently a German, was on Wednesday morning found floating in the East River, off Governor's Island, and has the appearance of having been foully dealt with. The body was taken to the foot of White Hall street, and the Coroner notified.
